Subject: Revised Supplemental Response of AOSmith Corporation to EPA request for information and documents for East Waterway of Harbor Island [GK-Active.FID2155225]

Dear Mr. Mednick:

As you know, our law firm represents A. O. Smith Corporation in connection with EPA's information request relating to the East Waterway Operable Unit of the Harbor Island Superfund site.

Following up on our submission on August 31, and my September 22 email stating that we would be supplementing our production because of a technical issue, I have attached the following:

1. Our cover letter relating to that supplemental response, with a link to a secure electronic site where the documents referenced in the response can be accessed;
2. The revised written responses from our client to EPA's information request; and
3. The certification signed by the client.

As referenced in the attached cover letter, we have made A. O. Smith's document production available at the secure link below:

(b) (6)

For security reasons, I will send the password to access the link by separate email.

If you would prefer that we share the documents using a zip drive (or another medium), or if you have any difficulties accessing the link, please let me know.

Of course, if you have any questions about the attached, feel free to contact me at your convenience.

Best regards,

Art
